

download_busco_set

prepare_augustus

download_genomes

run_busco

all

```
graph TD; download_busco_set --> run_busco; download_busco_set --> all; prepare_augustus --> run_busco; prepare_augustus --> all; download_genomes --> all; run_busco --> all;
```

A directed graph illustrating a workflow. The nodes are rounded rectangles with colored borders: 'download_busco_set' (yellow), 'prepare_augustus' (green), 'download_genomes' (red), 'run_busco' (green), and 'all' (blue). The edges are gray arrows showing dependencies: 'download_busco_set' points to 'run_busco' and 'all'; 'prepare_augustus' points to 'run_busco' and 'all'; 'download_genomes' points to 'all'; and 'run_busco' points to 'all'.
